Summary

Motivated Full-Stack Developer with expertise in the MERN stack and hands-on experience with Java Spring Boot. Skilled in building scalable and efficient web applications. Passionate about developing high-quality software solutions. Continuously enhancing knowledge of SDLC, cloud services, and modern development practices. Constantly seeking opportunities to contribute innovative coding solutions and improve development processes. Thrives in dynamic environments and eager to make a meaningful impact.

Experience

Shuban Software Services & Solutions

React-js Intern • RJ   01/2025 - Present

Worked on Live projects using MERN stack Developing features for managing stock, users, and real-time analytics Implementing role-based access control and efficient database management Collaborated with cross-functional teams to design, develop, and deliver high-quality software products on time. Participated in code reviews, providing constructive feedback for continuous improvement within the team environment.

Internships And Training

- Worked on projects like an Inventory Management Application and various daily tasks to improve efficiency.
- Developed features for managing stock, users, and real-time analytics.
- Implemented role-based access control and optimized database queries for better performance.
- Collaborated with the backend team to integrate APIs and improve data flow between frontend and backend.
- Fixed UI/UX issues to enhance user experience and responsiveness across devices.
- Conducted code reviews and implemented best practices to maintain clean and scalable code.
- Learned and applied Java frameworks to strengthen backend development capabilities.
- Gained experience in debugging and optimizing React applications for better performance.
- Worked with third-party libraries and APIs to extend application functionality.

Education

JECRC University Jaipur

Master's of Computer Application • Jaipur,Raj   01/2025

Aryabhatta Engineering College Ajmer

Bachelor's of Computer Applications • Ajmer   01/2023

Skills

- Java Development with SpringBoot
- JavaScript Programming Experience
- React Development
- Skilled in Building Applications with Express.js
- MongoDB Database Management

- Firebase Integration
- Cloudinary Management
- Proficient in Cloud Computing Platforms

Github And Public Projects

- **SnapGram**: A social media platform that allows users to share images and captions.
- **RoomEase**: A room-sharing and renting platform built using the MERN stack.
- **Task Management & Blog App**: A project that combines task tracking and blogging features with image uploads.
- **Inventory Management System**: A full-stack application with role-based login for managing stock, tracking inventory levels, and handling product data efficiently.
- **Other mini-projects**: Password generators, theme changers, UI color pickers, and API integrations.

Certifications

- JavaScript Certificate, Infosys Springboard
- DHTML Training Certificate, Infosys Springboard
- Creating Responsive Webpages using Bootstrap 4

Self Driven Projects And Learning

- Worked on various projects using the MERN stack.
- Created APIs using Java Spring Boot.
- Explored ways to visualize GitHub repositories.
- Researched AI-based virtual assistant projects using GPT Gemini.
